GREAT TASTE
IS NOW SERVED

GAGGIA
MILANO

AN EYE-CATCHING DESIGN

La Brillante introduces a new range of fully automatic coffee machines that not only stand out for contemporary, understated styling that will win you over at first glance, but for their generously sized operating capacities.

The well thought-out design includes a 7" touch screen and an interface that is user-friendly for both operators and customers.

PRIMEMILK TECHNOLOGY

Along with the highly reliable Z4000 coffee brewer, La Brillante also features the new PrimeMilk technology: a pioneering milk frother system which, besides offering fresh milk-based beverages foamed to perfection, allows the required amount of froth to be dosed with precision and for each recipe, thereby satisfying the preferences of even the most demanding customers.

La Brillante also makes work easier for operators: the PrimeMilk system includes automated cleaning cycles, simply activated on the display and for which none of the internal components needs to be removed or disassembled.

NEW VERSION

LA BRILLANTE 2ES

La Brillante is now available in the new version with two coffee grinders, able to handle two types of coffee beans and cater to the most sophisticated tastes.

**THE SUCCESS STORY OF ONE OF THE WORLD'S
MOST WELL-KNOWN ITALIAN BRANDS BEGAN
IN THE MILAN OF THE '30s**

It was 1938 when Achille Gaggia, a bartender with a scientific mind, revolutionized the way that aroma was extracted from coffee beans by inventing espresso topped by natural creamy foam: since then a distinctive pleasure that has conquered the world.

The mission of Gaggia Milano is now that of exporting the true Italian coffee experience throughout the world thanks to coffee machines of sophisticated design.

Innovation, while respecting tradition, is the strength behind the entire range of professional machines: thanks to cutting-edge technology and an eye to the future, Gaggia Professional is able to meet the needs of Professional users and consumers worldwide.
